PROJECTS

ShopPilot AI — Agentic Commerce Assistant | JavaScript · AI/LLM · Full Stack · E-commerce

- Built an **agentic AI shopping assistant** that converts natural-language shopping goals into personalized product recommendations and ready-to-buy carts.
- Designed an intent-driven workflow to **extract user requirements, filter products, rank recommendations, and generate an AI-powered shopping cart**.
- Enables goal-based shopping such as *"Build me a college setup under ₹15,000"*, reducing manual product search, filtering, and comparison.
- Developed a full-stack e-commerce experience focused on **personalized recommendations and automated shopping workflows**.
